

03 August 2018

As you may be aware, changes to the California Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65") go into effect on August 30, 2018. Tutco-Farnam Custom Products would like you to know, as a valued business partner, that we take compliance with laws and regulations seriously. As a result, we have conducted a full analysis of our products and product labelling in accordance with Proposition 65 and made necessary changes to our labelling to ensure that we are in full compliance. Such labelling can be found affixed to the product external packaging. For bulk orders, labels are additionally affixed to the individual product packages as well.

We expect that our Valued Business Partners are also aware of their responsibilities under Proposition 65. **As a courtesy, please note that distributors and retail sellers of our products are obligated under California law to ensure that the Proposition 65 warnings set forth in our labels are provided to consumers prior to or during the purchase of these products.**

Proposition 65 and its implementing regulations include specific instructions for ensuring that the information in on-product warnings (such as those on our products) are conveyed to consumers purchasing at "brick and mortar" stores, or via the internet or catalogues. Please consult your counsel for further information. *See also* Title 27, California Code of Regulations, Article 6 §§ 25600.2, 25602.

We appreciate and look forward to our continued business relationship. Should you have specific questions regarding our products and our Proposition 65 compliance, please contact John Greene.

Sincerely,

**John Greene**
